

A **new** dental benefit for our members! Get **\$1,500** with the Dental Flex Card to help pay for dental services

Why you need it

As a CareOregon Advantage Member, your dental services like regular exams, cleanings and dentures are paid for by your Medicaid coverage. But what if you have other dental needs that Medicare or Medicaid don't cover?

The NEW Dental Flex Card can be used for costs beyond what Medicare or Medicaid covers, helping you extend your coverage where you need it most.

How it works

Your card will be mailed to you shortly after you enroll, with instructions on how to use it. This pre-loaded card can be used to cover costs up to the set amount of \$1,500 to help pay for dental services that Medicare or Medicaid doesn't cover, or only partly covers.* You can use the money for things like:

- ▶ Crowns
- ▶ Root canals
- ▶ Dentures
- ▶ Nightguards and more

**Cosmetic services are not covered*

If you do not have a regular dental provider, contact your Medicaid dental plan for help with finding one. Your provider will get to know your mouth and your health. They will also make sure you get all your free Medicaid dental benefits. And they work with your Dental Flex Card for services not covered by your Medicare or Medicaid.

How to use it

The money on your card is only available for one calendar year. Any money left on your card at the end of the year will expire. It does not carry over to the next year.
